For sponsors; // who

Brainstorming:

So, I have a really strong idea for the site. I think all of these look pretty good/ achievable to make so we could vote on a design layout but something interesting I really want is a news tab. The top news can be directly related to the actual team but then maybe we could have a second section under that with general robotics news via an RSS feed if you know what that is.

How will the mobile version of the site differ to the desktop one?

DESKTOP IDEA:

(DONE)schedule : blue alliance nav //content

(DONE)Chief delphi website //content VINCE

Build block; in season update //page structure BEN

(DONE)How to join; contact form 9-12 grade; school; name; email //function BEN

(DONE)Writes to spreadsheet //function VINCE

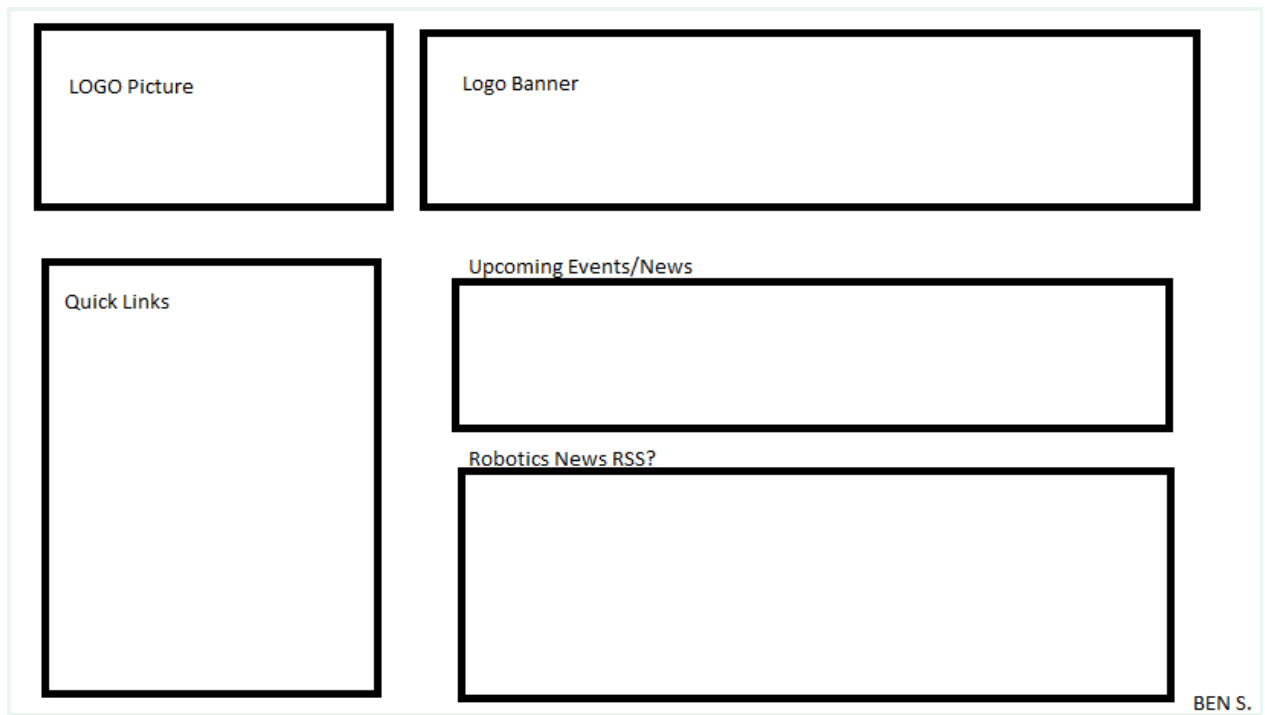

(DONE)Infinite scroll; clean //style NIC

(DONE)b/w color //style VINCE

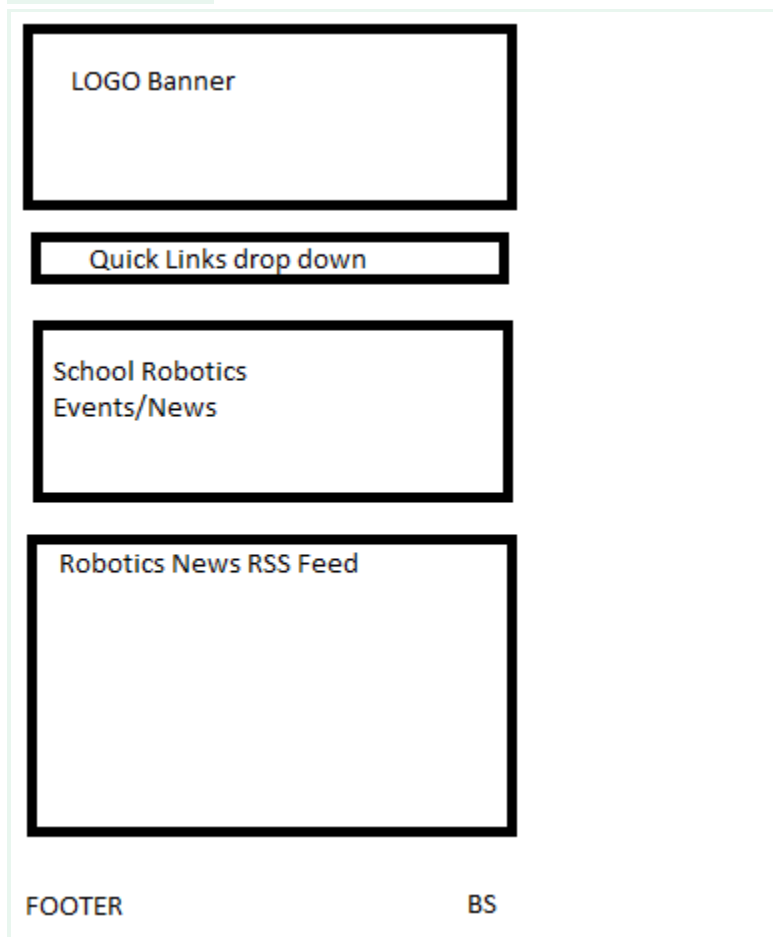

(DONE)Logo the only color //style

(DONE)Hamburger menu NIC

Make github

Mobile Variant Idea

Discussion points 9/17/21:

- Hosting
- Calendar
- Build block
- Official logo files

Nav appears when you scroll past a certain point

<https://stackoverflow.com/questions/53519264/sticky-nav-with-click-to-scroll-function>02

Smith notes 9/17

Less frame -- sleek
